

Working group Evaluation in Development Cooperation

The working group has over 100 members in its mailing list.
Their areas range from agriculture over migration to organizational development.

Guiding questions

- Which evaluation designs/approaches and methods are suitable for DC interventions?
- How can these be successfully planned and implemented?
- How are the experiences and results of evaluations processed and used?
- How do we find evaluation professionals with the appropriate skills?

Working contents

- Evaluation designs/approaches and methods
- Knowledge management in learning organizations
- Result-oriented program and project management
- Network, exchange of experience with foreign evaluation networks and eval-training.org
